

Truckfill Payment Terminal

MARTEN BEACH LOCATION ONLY

The Marten Beach Truckfill has a payment terminal to process bulk water transactions. Take a moment to review the steps involved in using this terminal.

The payment terminal accepts Apple Pay, Google Pay, or a chip-enabled credit or debit card. The terminal does not support PIN entry.

1

Choose your method of payment

Tap-to-pay: Press the **START** button and follow the onscreen instructions.

Account holders: Use the keypad to type your access number, then press **ENTER**.

2

Enter your desired water volume

Debit card users must press the FP key and follow the onscreen instructions.

Use the keypad to enter the amount of water you need (maximum of 5.5 cubic meters), then press **ENTER**.

Account holders: Your total will be displayed and your transaction will be processed.

Tap-to-pay: Your total will be displayed and you'll be prompted to tap (or swipe).

3

Confirm and fill

*To bypass the 5-second waterflow delay, just press **START** a second time.*

Upon payment approval, the screen will display your requested water volume, plus a reminder to ensure the hose is positioned over your tank.

Press **START** to begin filling your tank.
