Payment Method Update for Flatbush Bulk Water Station

The debit and credit payment option at the potable Flatbush Bulk Water Station is no longer available due to unforeseen circumstances. We appreciate your understanding and continued support. If you don't have an active account with an access code and PIN and require potable water for residential purposes only, call us toll-free at 1.866.449.4888.

Remote Bulk Water Station Use for Residential Only

The original purpose of this facility was to supply Marten Beach Subdivision users with potable water.

Due to the difficulty of maintaining storage with the addition of the industrial users (*being a Remote Bulk Water Station*) it is Council's direction to go back to continue using this facility for **Residential purposes only**.

All Industrial users should now find other means for sourcing water. There are other Bulk Water Stations within the MDLSR they can utilize that are not Remote Bulk Water Stations. All Bulk Water Stations are accessible by Industrial users if they have an active Utilities Account (effective July 14, 2025).

"Remote Bulk Water Stations" means a Bulk Water Station where water is hauled to these stations via tanker trucks. If you have any questions or concerns, please contact the Utilities team toll-free at 1.866.449.4888.
